the head of Sanatorium
nursery-school №
189 of Minsk

Minsk 2020

Humanitarian project of the state educational institution "Sanatorium nursery-school № 189 of Minsk"

Project's name: "Make friends with physical culture, There is an eternal youth secret in it"

Type of a project: wellness focus

Justification and statement of the problem

In modern preschool pedagogy, the tasks of strengthening the physical and mental health of children, their full development are highlighted. The problem of protecting and promoting health is very relevant in modern conditions. The solution to these problems is impossible without the creation of a modern subject-developing and health-saving environment. It is all the more important in pre-school institutions of the sanatorium type, where children with poor health go.

Our nursery-school has been operating since 1963. Gaming and sports equipment installed at the opening, partially dismantled due to its injury hazard, partially morally obsolete, therefore, sports, playgrounds and a gym need modern equipment.

Purpose of the project: creation of conditions for strengthening the physical and mental health of children, their full development.

Target group: children of preschool age, parents, employees of preschool educational institution.

Stakeholder group	Interest in project	Under what conditions the parties are interested in a long-term project	Possible participation
Children	There is enough space to play, to do PE, it's safe	there is a sports ground, a sports hall, playgrounds equipped with modern facilities	Target group
Parents	Strengthening the physical health of children, eir development, inclusion in the educational process	Active participation in the educational process, reducing the incidence of children	Target group
Educational institution employees	Strengthening the physical health of children, development of physical qualities, the involvement of parents in the educational process	The availability of modern safe sports and gaming equipment, the ability to plan new forms of work with children and parents	Target group

Project objectives:

1. Attracting children and adults to physical education and sports in order to promote a healthy lifestyle.
2. Implementation of state policy in the field of physical education and development of the younger generation.
3. Attracting socially significant and interested partners in cooperation.
4. Improving the quality of the educational process.

Justification of the project:**Regulatory:**

Education Code of the Republic of Belarus dated January 13, 2011 No. 243-3
Educational program for preschool education, 2014
